

2008-2009
PROPOSED Student Zone-to-Zone Transfer Process

To address growth patterns, the District intends to adjust elementary school attendance zone boundaries. The District plans to announce the new zones before the 2008-09 school year, but they will not become effective until the 2009-10 school year. Some parents have asked that, if the re-zoning will require that their children move to a new elementary school in 2009-10, they be permitted to apply for an early transfer, moving their children to the new school for the 2008-09 school year. Working within its financial constraints, the District has therefore established the following guidelines for early transfer.

1. Students will be permitted to transfer on a case-by-case basis if space is available on the campus in the student's grade level without incurring additional costs for teachers or classrooms.
2. Applications for transfer shall be date-stamped on arrival in the Superintendent's Office and considered on a first-come, first-served basis.
3. So that the final determination for teacher hiring and student class assignments can take place before the start of the 2008-2009 school-year, all student transfer requests must be received by August 1, 2008.
4. Transportation for transfer students shall not be provided by the District. Bus transportation will not be modified for 2008-2009 to accommodate transfer students under this process.
5. The District will not be required to set up new programs, extend an existing program to a new campus or establish a new level of an existing program that does not already exist on the campus.
