25	\$53,850
26+	\$54,450

Range Maximum \$56,850

This chart represents annual salaries based on full time contract arrangements for 10 months employment based on 187 days. Salary levels meet or exceed state minimum salary requirements. Professional staff on duty for more or less than 187 days will receive an annual salary for the number of days on duty based on the daily rate for the certified year of experience.

Teachers with a masters degree receive a \$1,000 supplement above the regular teacher salary which is paid in December. Librarians and Counselors receive a \$3,000 supplement above regular teacher salary, which is paid throughout the year. Supplements are based on full time employment for 187 days and will be prorated for part-time employees.

Salary is based on the above schedule for the certified years of experience and degree as of 9/1/2007, or \$2,000, whichever is greater.

Predictions of future salaries are not possible from this chart. Each year the steps in the pay range are revised to show any salary increase approved by the board. Individual salaries are not reduced though salaries remain the same until the board grants a general pay increase.
